ROMAX • Oil on canvas 120x140

Nyisztor's forever now aesthetic explores the present in pared back paintings of becalmed subjects. His combination of a restrained palette and crisp execution present a highly personal, almost metaphysical world, drawing discards near for close scrutiny. The results are full of visual intrigue, studies of things often seen and just as often overlooked.

**Gary Dufour**

**Chief Curator | Deputy Director**
